Computer Camps For the KIDS That Will Shape the World of the FUTURE!
PARTNERSHIP PREPARING CHILDREN FOR THE NEW MILLENNIUM!

COMPUTER CAMP

Mind Challenge

ENCLOSED IS YOUR COMPUTER CAMP APPLICATION FORM

FUTUREKIDS

What are you going to do with your kids this summer?

Dear Parent :

Is there any way your children can have fun and at the same time *learn essential technology skills* and *develop their emotional, cognitive and social skills*? Think about the life long skills from decision making, effective communication, verbal abilities, collaboration/ team play to problem solving and the technology skills your child can learn while having so much fun at **FUTUREKIDS Summer Camps**.

This summer take your kids to **FUTUREKIDS** camps! The staff and teachers would like to take this opportunity to welcome you and your children to an exciting, enjoyable adventure that will benefit them for the rest of their lives! **FUTUREKIDS**, the world leader in computer education, offers summer Computer and Mind Lab camps that combine the latest in board games and technology with themes and subjects kids love. You can get started with one camp or spend the entire summer with us.

What is **NEW** this summer? Our **NEW** *location and fully new renovated* learning center as well as innovative and trendy technology camps including world renowned Mind Lab program. **Mind Lab** program is for children 4 to 15 years old. This exciting program introduces children to hands-on, interactive, multi-solution games that are explored individually or with several friends. Each child is challenged and coached to take the games to new levels of play and excitement with the help of the instructor and each other.

To better serve our **FUTUREKIDS** working customers, we extended our daily camp hours from 9:30AM – 4:30PM. With these new camp hours, everyday our campers will get a chance to do 4 hours of computer training and 2 hours of Mind Lab. We didn't forget our younger campers for their half day schedule. We are also offering morning or/and afternoon camps with a combination of technology and Mind Lab classes.

(For more information check our summer camp schedule or our fully redesigned web site www.futurekidsnyc.com/camps.htm)

Please take a moment to review **the enclosed forms for specific camp titles, age ranges, dates, times, and prices.** Please use the attached application to indicate your choices, then send it via fax (212) 717-0259, along with your payment information or call us at **(212) 717-0110** to enroll. Reserve your spot TODAY, as **space is limited!**

Sincerely yours,

HAVE A GREAT SUMMER!

Renan Eskinazi
FUTUREKIDS NYC, Learning Center Director   **See enclosed brochure and form for schedule**

TECHNOLOGY FOCI		**Primary Technology Foci:** Databases, Graphics and Desktop Publishing **Academic Foci:** Problem Solving, Casual Reasoning and Mystery Genre	**Primary Technology Foci:** Desktop Publishing, Graphics and Spreadsheet **Academic Focus:** Entrepreneurship & Math	**Primary Technology Foci:** Desktop Publishing and Graphics **Academic Focus:** History
CAMP DESCRIPTION		You're on a case to find a stolen dog! As a detective, use your skills to find the missing dog by questioning her/his canine and human friends. Create and design reward signs. Analyze the dog's belongings to find clues that will lead you to his/her captor.	Get 'two scoops' of math learning fun when you take on the role of a busy ice cream truck owner! You get to decide what ice cream flavors you want to sell, promote, and decorate your truck to attract customers and decide where to sell your ice cream. Finally serve the customers, while you use an interactive cash register to tally sales and profits.	ALL ABOARD! It's time to take a trip of a lifetime! Learn about history as we travel back in time to explore ancient civilizations like the pharaohs of Egypt, the knights of medieval times, and the Vikings. We will also create our future as we travel into it to discover new technology, cultures and beings from other worlds. So hop on into the FUTUREKIDS time machine as we explore and discover the past & future.

TECHNOLOGY FOCI		**Primary Technology Foci:** Desktop Publishing and Graphics **Academic Focus:** English, Storytelling, Folklore	**Primary Technology Foci:** Desktop Publishing and Graphics **Academic Focus:** Astronomy, Sociology	**Primary Technology Focus:** ALL
CAMP DESCRIPTION		Alakazzam! You are now turned into a powerful wizard. Join the rest of your fellow wizards at FUTUREKIDS place. Go to wizard school as you learn how to create spells, potions and costumes. Enter the world of wizards and witches and test your memory skills against orcs, ghouls and goblins through Mind Lab games.	Are you ready to RUMBLE!! A mighty foe has come to take over your planet and it is up to you and your band of characters to fight against them or with them. Create and customize your cast characters. Learn the tales of some of the most famous monsters as well as space travel & the planets. Create a story & illustrate a story of how this epic battle will end. Will your battle have a one eyed monster, or pig like space creature? It is all up to you. Let the battle begin!	Extend your camp experience as you explore from three options of what you can be doing on your extra day. You can choose to explore the FUTUREKIDS educational software library at your own pace, as you develop logic skills to increase your visual and mental acuity. You can also use this extra day to enhance the skills you have learned in your camp. Explore other methods of creating your masterpiece to make your project even better! Think your masterpiece is done? Well join us in our world renowned Mind Lab program. Explore various strategies to some of you favorite board games.

COMPUTER TECHNOLOGY (Ages 8-15)

TITLES	RAPID FIRE KEYBOARDING	WEB PAGE DESIGN	FLASH ANIMATION
LUNCH NOT INCLUDED WITH REGISTRATION - PLEASE PACK LUNCH FOR YOUR CHILD(REN)			
FULL DAY: 9:30AM - 4:30PM *(MIND LAB IS INCLUDED IN ALL CAMPS)* **SCHEDULE** **4 Hours of Technology** **2 Hours of Mind Lab** **4 Days - $575**	**AGES 8 - 15** **WEEKS OFFERED** June 8th - 11th June 15th - 18th July 13th - 16th August 3rd - 6th August 31st - September 3rd	**AGES 8 - 15** **WEEKS OFFERED** June 22nd - 25th July 6th - 9th July 20th - 23rd August 10th - 13th August 24th - 27th	**AGES 8 - 15** **WEEKS OFFERED** June 29th - July 2nd July 6th - 9th July 27th - 30th August 17th - 20th August 24th - 27th
TECHNOLOGY FOCI	**Primary Technology Focus:** Keyboarding **Secondary Technology Focus:** Wordprocessing	**Primary Technology Focus:** Web Page Creation **Software:** Adobe Dreamweaver	**Primary Technology Focus:** Animation **Software:** Adobe Flash
CAMP DESCRIPTION	Develop and improve your keyboarding proficiency using the patented Herzog System™. Practice your word processing skills. Improve your writing techniques. Learn the "high-tech" way to create reports and stories that will impress your teachers and amaze your friends! Great for beginners or as a refresher course to improve your speed and precision.	Learn Dreamweaver web design software as you build an exciting and fun web page site. You pick the topic and build an entire web site focused on your own interests. Create and use hyperlinks to guide a user/visitor through tricks and turns. Embed simple flash animations & music. Use more techniques to separate your site from all the rest. Explore your creativity, as you design a web page of your very own.	Do you watch funny online videos & commercials? Have you ever played games online? Did you know many of them use Flash as a source of animation? Here is your chance to create one of your very own Flash Animation. Build, create & edit your characters. Add sound & music. Learn how to animate the characters frame by frame.

MIND LAB

The Mind Lab Vision

Since the dawn of civilization, thinking games have played a pivotal role in culture and in family life. Teachers would draw lines in the sand as environmental game boards for students to position game pieces for engrossing, mathematically focused, mind building exercises. Playing mentally and socially captivating games served to connect families and communities together through conversation and collaboration rich game play.

At the heart of Mind Lab is the principle that the best way to reach, teach, and inspire students, is through enthralling thinking board games. Playing these games so captivates the student learners that they literally beg for more "play" when the sessions conclude.

Through its multicultural mix of games, Mind Lab offers students, grades K-12, an experiential and inquiry focused approach for addressing: mathematical reasoning, problem solving, literacy, test sophistication skills and life skills; as they have tremendous fun teaming and playing by the rules.

The Mind Lab Methodology

Step One: Playing Thinking Games
Students learn how to play one of the many Mind Lab games through the instructor's sharing a game kit with them. The instructor facilitates a review of the game rules, instructions, underlying thinking concepts and strategies for successful play.

Step Two: Using the Mind Lab Method
After initial "playing of the game," students are presented with one of the thinking models, through which they can reflect on the experience of playing. This model relates to cognitive processes triggered by game playing, or to emotional or social processes.

Step Three: Making Real World, Real Life Connections
Then the students go beyond the game itself to talk about the ways in which their insights "play" out in the real world of: school, family, neighborhood, work, politics, and community.

Emotional Skills	Cognitive Skills	Social Skills
Managing emotions	Problem-solving	Cooperation
Deferring gratification	Decision Making	Rules and structure
Persistence	Drawing conclusions	Effective communication
Resilience	Mathematics and logic	Conflict resolution
Willpower and perseverance	Verbal abilities	Collaboration/Team Play
Self-discipline	Sequencing	Youth Leadership
	Weighing options	Character Education
