**Computer Camps For the KIDS That  
Will Shape the World of the FUTURE!**

**PARTNERSHIP PREPARING CHILDREN FOR THE NEW MILLENNIUM!**

**COMPUTER  
CAMP**

**SUMMER  
CAMP  
2008**

**ENCLOSED IS YOUR COMPUTER CAMP  
APPLICATION FORM**

## What are you going to do with your kids this summer?

Dear Parent :

Is there any way your children can have fun and at the same time *learn essential technology skills and develop their emotional, cognitive and social skills*? Think about the life long skills from decision making, effective communication, verbal abilities, collaboration/ team play to problem solving and the technology skills your child can learn while having so much fun at **FUTUREKIDS Summer Camps**.

This summer take your kids to **FUTUREKIDS** camps! The staff and teachers would like to take this opportunity to welcome you and your children to an exciting, enjoyable adventure that will benefit them for the rest of their lives! **FUTUREKIDS**, the world leader in computer education, offers summer Computer and Mind Lab camps that combine the latest in board games and technology with themes and subjects kids love. You can get started with one camp or spend the entire summer with us.

What is **NEW** this summer? Our *newly renovated* learning center as well as innovative and trendy technology camps including world renowned Mind Lab program. **Mind Lab**<sup>®</sup> program is for children 4 to 15 years old. This exciting program introduces children to hands-on, interactive, multi-solution games that are explored individually or with several friends. Each child is challenged and coached to take the games to new levels of play and excitement with the help of the instructor and each other.

To better serve our **FUTUREKIDS** working customers, we extended our daily camp hours from 9:30AM – 4:30PM. With these new camp hours, everyday our campers will get a chance to do 4 hours of computer training and 2 hours of Mind Lab. We didn't forget our younger campers for their half day schedule. We are also offering morning or/and afternoon camps with a combination of technology and Mind Lab classes.

(For more information check our summer camp schedule or our fully redesigned web site [www.futurekidsnyc.com/camps.htm](http://www.futurekidsnyc.com/camps.htm))

Please take a moment to review **the enclosed forms for specific camp titles, age ranges, dates, times, and prices**. Please use the attached application to indicate your choices, then send it via fax (212) 717-0259, along with your payment information or call us at **(212) 717-0110** to enroll. Reserve your spot TODAY, as **space is limited!**

Sincerely yours,

Renan Eskinazi  
FUTUREKIDS NYC, Learning Center Director

**HAVE A GREAT SUMMER!**

**See enclosed brochure and form for schedule**

To ensure a place for your child, a 50% deposit is due upon registration. This **non-refundable** deposit will be applied toward the total camp fee and **may not** be applied to any other program. **Full payment is due one week** prior to the scheduled Computer Camp starting date. After this date, campers with unpaid balances will be considered withdrawn from our program, and their place will be offered to another child. **THERE WILL BE NO REFUNDS, REDUCTIONS OR ALLOWANCES FOR ABSENCE OR EARLY WITHDRAWAL ONCE REGISTRATION AND PAYMENT HAS BEEN SUBMITTED.** Also, all camp schedules are set; dates and times cannot be changed.

<b>CAMP DESCRIPTION</b>		<p>Does your child have exceptional computer skills? Well, look no further, an advanced class is here; 3D Animation. Your child will learn how to create and edit 3 dimensional cartoon animals using a state of the art Cosmic Blob software. Once created, they will be able to animate their character and save it to show all of their friends.</p>	<p>Hey kids! Ever wanted to know how your favorite games are created? This camp allows you to make several interactive games, you can play at home. You can discover how easy and fun it can be to plan, program and test your game. You can even add crazy sound effects to make your game even cooler. Students will build simple to complex game interactions, while learning how programming works "behind the scenes". Want to play your game online? Well, you'll learn how to create a website so that you can play your game online.</p>

**(Ages 3-5 and 6-8)**

**PET STORE**

**AGES 3 - 5 and 6 - 8**

**WEEKS OFFERED**

June 9<sup>th</sup> - 12<sup>th</sup>  
July 21<sup>st</sup> - 24<sup>th</sup>  
August 25<sup>th</sup> - 28<sup>th</sup>

**Primary Technology Foci:**

Graphics, Desktop Publishing, Web Search and Spreadsheets

**Academic Foci:**

Math and Economics

Grand Opening!

Run and operate your own pet shop. Name your shop.

Decide on the animals you will sell.

Design advertisement and commercials.

Create your personalized business cards.

**ZOO ESCAPE**

**AGES 3 - 5 and 6 - 8**

**WEEKS OFFERED**

June 30<sup>th</sup> - July 3<sup>rd</sup>  
July 28<sup>th</sup> - 31<sup>st</sup>  
September 2<sup>nd</sup> - 4<sup>th</sup>

**Primary Technology Foci:**

Graphics and Desktop Publishing

**Academic Foci:**

Animal Studies, Character Education and Creative Thinking

The zoo animals are free! But where will they go? Determine the fate of the freed animals as you "meet" your new animal friends, learn their names, habitats, feed, play habits and more. Sequence the animals moves, get through ocean mazes, color by number your own world as you guide them to their natural habitat. Use technology to design "animal crafts" and make your own worldly "dioramas."

**ICE CREAM TRUCK**

**AGES 3 - 5 and 6 - 8**

**WEEKS OFFERED**

June 16<sup>th</sup> - 19<sup>th</sup>  
July 7<sup>th</sup> - 10<sup>th</sup>  
August 4<sup>th</sup> - 7<sup>th</sup>

**Primary Technology Foci:**

Desktop Publishing, Graphics and Spreadsheet

**Academic Focus:**

Entrepreneurship

Get 'two scoops' of math learning fun when you take on the role of a busy ice cream truck owner! You get to decide what ice cream flavors you want to sell, promote, sale items as you decorate your truck to attract customers and decide where to sell your ice cream. Finally serve the customers, while you use an interactive cash register to tally sales and profits.

**THE CASE OF THE MISSING DOG**

**AGES 3 - 5 and 6 - 8**

**WEEKS OFFERED**

June 16<sup>th</sup> - 19<sup>th</sup>  
July 14<sup>th</sup> - 17<sup>th</sup>  
August 18<sup>th</sup> - 21<sup>st</sup>

**Primary Technology Foci:**

Databases, Graphics and Desktop Publishing

**Academic Foci:**

Problem Solving, Casual Reasoning and Mystery Genre

You're on a case to find a stolen dog! As a detective, use your skills to find the missing dog by questioning her/his canine and human friends. Create and design reward signs. Analyze the dog's belongings to find clues that will lead you to his/her captor.

**NUTTY NUMBERS & LETTERS**

**AGES 3 - 5 and 6 - 8**

**WEEKS OFFERED**

July 14<sup>th</sup> - 17<sup>th</sup>  
August 11<sup>th</sup> - 14<sup>th</sup>

**Primary Technology Foci:**

Graphics and Desktop Publishing

**Academic Foci:**

Language Arts and Math

Do you like numbers? How about letters? Well, numbers & letters are everywhere. In this camp you will get to use letters & numbers in many different ways. Use numbers to sell toys, food, and clothing...use letters to make a flipbook...use letters & numbers to make patterns. You can go to infinity and beyond!

**EXPLORERS**

**AGES 3 - 5 and 6 - 8**

**WEEKS OFFERED**

EVERY FRIDAY  
FROM JUNE 9<sup>TH</sup> THROUGH SEPTEMBER 4<sup>TH</sup>

**Primary Technology Focus:**

ALL

Extend your camp experience as you explore from three options of what you can be doing on your extra day. You can choose to exploring the FUTUREKIDS educational software library at your own pace, as you develop logic skills to increase your visual and mental acuity. Don't want to play games? Well you can use this extra day to enhance the skills you have learned in your camp. Explore other methods of creating your masterpiece to make your project even better! Think your masterpiece is done? Well join us in our world renowned Mind Lab program. Explore various strategies to some of you favorite board games.

Think your masterpiece is done? Well join us in our world renowned Mind Lab program. Explore various strategies to some of you favorite board games.</p>

# MIND LAB

## The Mind Lab Vision

Since the dawn of civilization, thinking games have played a pivotal role in culture and in family life. Teachers would draw lines in the sand as environmental game boards for students to position game pieces for engrossing, mathematically focused, mind building exercises. Playing mentally and socially captivating games served to connect families and communities together through conversation and collaboration rich game play.

At the heart of Mind Lab is the principle that the best way to reach, teach, and inspire children, is through enthralling thinking board games. Playing these games so captivates the student learners that they literally beg for more "play" when the sessions conclude.

Through its multicultural mix of games, Mind Lab offers children, ages 4-17, an experiential and inquiry focused approach for addressing: mathematical reasoning, problem solving, literacy, test sophistication skills and life skills; as they have tremendous fun teaming and playing by the rules.

## The Mind Lab Methodology

### Step One: Playing Thinking Games

Students learn how to play one of the many Mind Lab games through the instructor's sharing a game kit with them. The instructor facilitates a review of the game rules, instructions, underlying thinking concepts and strategies for successful play.

### Step Two: Using the Mind Lab Method

After initial "playing of the game," students are presented with one of the thinking models, through which they can reflect on the experience of playing. This model relates to cognitive processes triggered by game playing, or to emotional or social processes.

### Step Three: Making Real World, Real Life Connections

Then the students go beyond the game itself to talk about the ways in which their insights "play" out in the real world of: school, family, neighborhood, work, politics, and community.

#### Emotional Skills

- Managing emotions
- Deferring gratification
- Persistence
- Resilience
- Willpower and perseverance
- Self-discipline

#### Cognitive Skills

- Problem-solving
- Decision Making
- Drawing conclusions
- Mathematics and logic
- Verbal abilities
- Sequencing
- Weighing options

#### Social Skills

- Cooperation
- Rules and structure
- Effective communication
- Conflict resolution
- Collaboration/Team Play
- Youth Leadership
- Character Education
